ENER-SUPPLY Video Competition: Deadline extended to 25th of January 2012!

Since we received requests from several people for little more time, the ENER-SUPPLY team decided to extend the deadline of our Video Competition to 25th of January 2012. The winning participant and other selected participants will benefit from a strong public visibility through several media and dissemination initiatives. In particular the first 10 winners will be:

- Published on the websites of the ENER SUPPLY project;
- Presented during EU event where the ENER SUPPLY project will be presented (e.g. European Union Sustainable Energy Week);
- Presented to the Managing Authority of the South East Europe Programme;
- Published in the final DVD of project with all the results of ENER SUPPLY.

The ENER SUPPLY project will offer the task of the creation of a video service, regarding the content of the project "ENER-SUPPLY", to the author of the 1st best video.

We look forward to receiving your great green ideas!
