

Private videos and how to share them

If you would like to limit the exposure of one of your videos, you can set it to be a **Private** video. If your video is set to **Private**, only you and up to 50 other users who you invite to view the video will be able to see it. The video will not appear on your channel, in search results, or in playlists etc.

How to make a Private Video

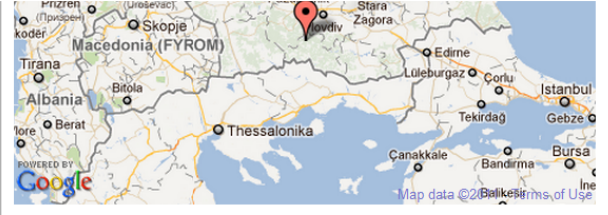

Sharing Private videos

If you'd like to share one of your videos with a select and limited audience, you can do so by setting your video to **Private**. Once the video's set to Private you'll be able to **share it with up to 50** other users.

Here's how to share your private video:

1. **Sign in** to your YouTube account and click the [Account](#) link located (at the top-right of any page).
2. Next, click the [Uploaded Videos](#) link. Click and choose the video you want to send to your friends. Then, click the **Edit** button.
3. Under the **Broadcasting and Sharing Options** section (on the left-hand side of the page towards the bottom) you'll see **Privacy** options. Click the little black arrow / triangle to expand and see all your privacy options (if its not already open and you cannot see your privacy options).
4. If the video is set to Private, you'll see a section to enter up to 50 YouTube usernames that will have access to your private video.
5. In this section type office@bsrec.bg and VideoCompetitionES (YouTube contact)

Choose a video still from above to represent your video in search results and other displays. You can choose a different still image by clicking on it. Note: it can take up to 36 hours for your image to be updated.
